

Fast Track Cyber Safe Curricula for K 12 Schools

This educational leadership workshop is designed for school administrators and key school site teacher leadership representatives who are looking for Cyber Safe curricula that provides holistic cyber education that is simple to implement.

FBI SOS – This program is easy and fast to implement, perfect for middle school and early high school students. FBI SOS provides secure student, class and school data from an assessed scavenger hunt. Schools become a part of a national monthly competition. This system uses the best of formative assessment to keep students engaged.

NOTE: Daryl Hulce, Director of the FBI SOS program, will be our special guest presenter at this session.

Cyber Hero – This program is easy and fast to implement, perfect for early elementary students. The youngest students are engaged by adoption of a “woogie” whom they teach how to be safe and smart online. In Woogie World the student becomes the teacher.

Cyber Smart Week – Is a holistic cyber citizenship set of short lessons allows K-12 students to be given lessons that are appropriate for their age level K-3, 4-8, 9-12. Santa Ana Unified School introduced and produced this last year as “Cyber Safety Week”.
