FALL 2011 RACIAL AND ETHNIC SURVEY HIGHLIGHTS

The Fall 2011 Racial and Ethnic Survey report was compiled and published by the Business Services Division of the Orange County Department of Education, containing data extracted from the California Longitudinal Pupil Achievement Data System (CALPADS) filed by schools in Orange County to the California Department of Education (CDE). It also contains data extracted from DataQuest, the CDE developed and maintained system that provides reports on accountability, staffing and student-level data.

For the purpose of this report, we have chosen to combine the Multiple and Missing categories to be consistent with the way data was reported in the previous year's Racial and Ethnic Survey. The Multiple/Missing category is comprised of students who identified two or more races or chose to not disclose their race. In some cases, year-over-year changes in race and ethnicity can be attributed to school districts re-surveying students using the latest federal definitions of the racial and ethnic categories.

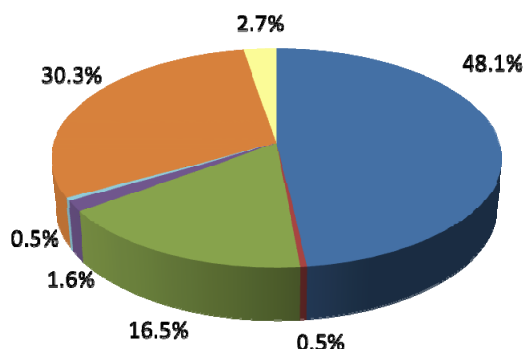

The following information highlights the data shown in this report:

Fall 2011 Orange County Enrollment	
Elementary School Districts	93,199
High School Districts	63,928

9th – 12th Grade 1-year Reported Dropout Rate Comparison		
2010-2011	Dropout Percentage	1.6%
2009-2010	Dropout Percentage	1.2%

In order to be consistent with figures reported by the CDE, dropout counts are calculated for grades 9 through 12 in K-12 school districts excluding grades 7 and 8 and county office programs. Dropout rate calculations compare the counts of dropouts over the entire school year with a single day enrollment count on Information Day (first Wednesday of October). Calculations posted on the CDE website include a 1-year reported rate, an adjusted 1-year rate, a reported 4-year derived rate and an adjusted 4-year derived rate.

Reported rates are solely based off information submitted by school districts to the CDE via CALPADS. Adjusted rates are calculated to include reenrolled dropout students and lost transfer students. The 4-year derived dropout rate is an estimate of the percent of students who would drop out in a four year period based on data collected for a single year. The dropout rates included within this survey are 1-year rate calculations based on reported school district counts of dropouts and enrollment.

Countywide, Orange County had an increase of 709 dropouts in grades 9 – 12 from the prior year. As a result, the percentage of dropouts in Orange County increased from 1.2% to 1.6%.

We wish to thank those individuals and school districts who prepared and submitted data to make this report possible. We sincerely hope that you find the information in this report useful and helpful. If you have any questions about this report, please call the Business Services Department at (714) 966-4232.
