CHEP students in grades 7 and 8 have an outstanding opportunity this year to participate in CIMI's outdoor science camp on Catalina Island at Fox Landing for 3 days, two nights, May 25-27, 2016.

CIMI offers an exciting program of marine biology and island ecology through hands-on experiential science activities in a beautiful natural setting. Expert instructors provide students with activities that will increase science literacy and promote an excitement about science.

A variety of experiential marine science labs focus on fish, sharks and rays, invertebrates, marine mammals, plankton, algae, and island ecology. Fun field activities include snorkeling, kayaking, an island ecology hike, and a night snorkel, among other program events.
