### TEAM AMERICA ROCKET CHALLENGE (TARC)

**Gr 6-8**

**OMS LINK:** <http://ocde.k12oms.org/1871-1375256>

TARC (TEAM AMERICA ROCKET CHALLENGE) is a CHEP class hosted by our friends at Starbase. In this engineering class, students learn computer design and then refine rockets they build for competition. The ultimate goal is to compete in the National TARC in Washington, D.C. in May.

Location: Los Alamitos Joint Forces Training Base, 11206 Lexington Drive, Los Alamitos, CA 90720

### MOMMY AND ME Meetings/Field Trips

Each month we focus on a thematic topic, and creative teaching ideas are shared at our meeting at CHEP North prior to the corresponding field trip. The teaching ideas are geared for K-3rd grade. Students of all ages are welcome to attend Mommy and Me field trips. *Field trips are pre-paid and non-refundable. Please contact Dianna Chen at CHEP North (714)245-6457 for more information.*

### AMY'S FARM

Amy's Farm trip sign-ups begin now.

Cost: \$8 per person

<b>FIELD TRIP DATE</b>	<b>DAY</b>	<b>TIME</b>
April 11	W	10:30 am-12:00

April's thematic unit will be on Farms. Join us at Amy's Farm in Ontario as we experience farm plants and animals "up close and personal!" Amy's Farm is a real, working polyculture farm. In an age when our country is filled with large monoculture farms, it is important for our students to see and learn about a polyculture farm. On Amy's polyculture farm, students will see a wide variety of plant and animal species living a symbiotic life. This farm system closely mimics nature where all species depend on each other. Students can see first-hand the importance of the circle of life. Most importantly, students will learn where their food comes from. This tour is a very valuable learning experience for all who visit. Come and see for yourself!

### CA Statewide TESTING

The CAASPP English Language Arts and Mathematics Testing (grades 3-8) and CAST Science Testing (grades 5 & 8) will begin in April. Please check the CHEP newsletter by site for details regarding the testing schedule.

### **Catalina Island Marine Institute (CIMI)**

Grades 7-8

Wednesday, May 23 – Friday, May 25, 2018

Cost - \$260.00

Deposit - \$60.00 upon sign-up

Spaces are limited to 16 students

CHEP students in grades 7 and 8 have an outstanding opportunity this year to participate in CIMI's outdoor science camp for three days, two nights at Fox Landing on beautiful Catalina Island.

CIMI offers an exciting program of marine biology and island ecology through hands-on experiential science activities in a beautiful natural setting. Expert instructors provide students with activities that will increase science literacy and promote excitement about science.

A variety of marine science labs focus on fish, sharks and rays, invertebrates, marine mammals, plankton, algae, and island ecology. Fun field activities include snorkeling, kayaking, an island ecology hike, and a night snorkel, among other program events. For a more in-depth description of CIMI activities and information, visit their website at

[www.guidediscoveries.org/cimifoxlanding.html](http://www.guidediscoveries.org/cimifoxlanding.html)

For more information about this wonderful opportunity or to sign-up please contact Sylvana Kaliterna at 714-245-6473 or [skaliterna@ocde.us](mailto:skaliterna@ocde.us).

### **EIGHTH GRADE PROMOTION INTERVIEWS/AUDITIONS**

Wednesday, April 4

Beginning at 10:00 a.m., by appointment only

OCDE Main Office

200 Kalmus Drive, Bldg. D1009

Costa Mesa, CA

To schedule an interview/audition appointment, or if you need additional information, please contact Dianna Chen at the CHEP North office at (714) 245-6457.

#### **Theme:**

The promotion theme is centered around the "5 C's" of 21st Century Skills- Collaboration, Creativity, Communication, Critical Thinking, and Character. Consider including in your speech or talent piece how CHEP has helped you grow and develop one or more of the "5 C's," or describe how CHEP has helped develop your growth mindset.

#### **Interviews/Auditions:**

On Wednesday, April 4, we will hold interviews/auditions at the OCDE main office for students who are interested in speaking or performing at promotion. Auditions will be held (by appointment) beginning at 10:00 a.m. in Room D1009. The CHEP eighth grade promotion program is a big undertaking that requires a substantial commitment from all students selected to participate in the program. The promotion program is similar to a theatrical production, and selected students must work as a team to pull the production together.

Eighth grade students are selected to emcee the program, be keynote speakers at the program, and highlight a few of the talents of the class of 2018. The interview and audition process assists the promotion committee in selecting students to represent the class of 2018. Representation from the three CHEP sites, the inclusion of a variety of talent, and students' level of commitment are a few factors considered in the selection process.

The promotion committee reserves the right to edit, shorten, or alter selected student speeches and performances to ensure appropriateness and balance of the entire promotion program. Visit [Google drive-song list](#) to access the list of songs that we have selected for singers that align with the theme of this very special event. Musicians and dancers may choose songs from this list, or perform with instrumental music.

### **EIGHTH GRADE PROMOTION**

8th grade students and families

Emails from the Promotion Committee were sent in February to all families of 8th Grade Graduates. Be sure to mark your calendars now for this special celebration!

#### **PROMOTION CEREMONY**

Thursday, May 31

3:30 p.m. - 5:00 p.m.

Garden Grove Community Center

11300 Stanford Avenue

Garden Grove, CA 92840

### **IMAGINEERS**

#### **Gr 4-5**

"If you can imagine it, you can achieve it."

**OMS LINK:** <http://ocde.k12oms.org/1870-1335534>

The name "Imagineering" combines imagination with engineering. Imagineers bring art, history and science together to generate creative ideas they can use in purposeful ways. Whether creating something using Little Bits, Legos, junk, or engaging in a variety of experiments, students will be challenged to think outside of the box. Using their imagination, they will develop creative ways to solve a problem and turn their ideas into a real-world device. Instructor: Cathy Marshall.
