

# Cambodian Genocide Model Curriculum Engagement Sessions

The Cambodian Genocide Model Curriculum will be developed in order to assist educators in teaching about the Cambodian Genocide as part of the Education Finance bill AB 167. Learn about AB 167 at the webpage [HERE](#). For more information about the project, please visit this webpage [HERE](#) or <https://tinyurl.com/ModelCurriculumProjects>

Perspectives and voices of community members, educators, and survivors of the Cambodian Genocide will lead the development of the Cambodian Genocide Model Curriculum. During a one-hour information session, participants learn about possible goals, vision, and outcomes of the Cambodian Genocide Model Curriculum. In a one-hour listening session, participants discuss their hopes for the model curriculum. Participants interested in sharing additional ideas will be invited to participate in a follow-up focus group.
