

SCIENCE OF READING:

Elementary or Adolescent Reading

The Science of Reading is for every reader. Join us for engaging, research-based professional learning focused on evidence-based literacy practices that support both elementary and adolescent learners. Sessions will explore practical instructional strategies, current literacy research, and meaningful application to strengthen reading outcomes across grade levels and content areas.

Participants will have the opportunity to **select either the Elementary or Adolescent Reading strand.**

Sessions will include:

- Evidence-based literacy practices aligned to the Science of Reading
- Instructional strategies
- Classroom application and implementation support
- Opportunities for collaboration, reflection, and instructional planning

In-Person Date:
February 17, 2027
