

**Empowering  
educators to lead  
computer science  
education.**

**Since 2017, Skill Struck has helped students learn coding and digital.**

**Today, our extensive online learning platform for K-12 schools provides an engaging learning experience for students with tools and resources to help teachers succeed in the classroom.**

# Perspective

In 2019, ~1.25 million AP exams were administered, but just 13% of those exams were AP Computer Science exams. Just 29% of those students were female, 16% were latino or hispanic, and 6% were Black/African American.<sup>1</sup>

Simply put, K-12 computer science students do not paint an accurate picture of the diverse groups found across U.S. campuses.

With 1,000,000 open CS jobs expected in 2020, this lack of diversity will affect students and hurt the tech industry—stagnating growth and limiting perspectives.

# Priorities

In 2020, and into the future, Skill Struck will disrupt the computer science status quo. Our team works tirelessly to ensure the Skill Struck platform provides an inclusive, engaging learning experience for students.

Breaking down barriers begins with the way we represent ourselves and our voyagers—students, teachers, and administrators.

Each is part of a diverse group of adventurous, unique learners, aided by Skill Struck as they journey through their unique computer science voyage.

# What sets Skill Struck apart?

Pre-Made Lesson Plans that Meet State Standards

Age-Appropriate Curriculum (Fun!)

Lesson and Curriculum Management

Entire K-12 Curriculum and Material

Makes Teachers Lives Easier

Auto-Grader

Support Chat for Teachers

Relevant Professional Development

Student Group Projects Capability

Student Portfolio

Engaging for Underepresented Student Groups

Industry Connections and Personal Video Stories

Community Code Nights and Outreach

A Local Partner, Ready to Go on this Journey with You

**THINKERS  
TODAY.**

**CREATORS  
TOMORROW.**

# Passion

Skill Struck works hard to support everyone using our platform. Our product is driven by our voyagers.

We continually push ourselves to create and apply innovative methods to improve computer science education for students, teachers, and administrators

Our team thrives on teacher feedback; we look to them for inspiration as we develop and implement features to meet classroom needs.

**CODING  
IS FOR  
EVERYONE.**

# I LOVE SKILL STRUCK!!

Everything is clear, concise, and it has all the wows!

**This is going to be an amazing journey;** sharing and teaching, students here at our school.

My first day training with Skill Struck's teacher-instructor was amazing . . .

I learned so much!

She told me she would work on providing me with answer keys to the quizzes, which I truly needed; I checked shortly after and she did!!!

**SKILL STRUCK IS FAST!!** The new answer keys were in the perfect place and just in time for tomorrow.
