2025–2026 PBIS

Positive Behavioral Interventions & Supports
School Team Trainings

PBIS is an evidence-based framework for teams to implement data, systems, and practices to support positive behaviors and help schools become safe, predictable, positive, and equitable learning environments. Paired with effective academic instruction, PBIS enables instruction to occur with fewer disruptions and students with the highest behavior and academic needs benefit most. OCDE offers professional learning to school teams across the tiered continuum of support.

Complete the Readiness Survey

Interested school administrators must complete the Readiness Guidelines for the desired tier of PBIS team training. This ensures the school's preparedness for training and increases the likelihood of successful implementation at the school site.
