Bullying is an unfortunate experience many students deal with while growing up. According to the American Academy of Child and Adolescent Psychiatry, close to 50% of all children are bullied at some time during their school years, and at least 10% are bullied on a regular basis. Students who are bullied can be deeply affected emotionally, socially and academically.

KATHRYN OTOSHI

The “ONE” Presentation, by author Kathryn Otoshi, is an interactive school-wide assembly that raises awareness about the harmful effects of bullying. Kathryn Otoshi will present her book One to demonstrate a powerful message about bullying, acceptance, compassion and the power of one person’s voice.

For more information or to schedule an assembly, please contact:
