

Clean Intermittent Catheterization – Male Skills Checklist

Person Trained _____ Date of Training _____

Instructor _____

<i>Explanation/Return Demonstration</i>	<i>Expl./Demo. Date</i>	<i>Expl./Demo. Date</i>	<i>Expl./Demo. Date</i>
A. States name and purpose of procedure.			
B. Preparation:			
1. Identifies student's ability to participate in procedure			
2. Reviews universal precautions			
3. Identifies where/when procedure is done			
4. Identifies proper positioning for procedure			
5. Identifies body parts:			
a. Foreskin			
b. Meatus			
c. Glans			
d. Urethra			
6. Identifies possible problems and appropriate actions.			
C. Identifies needed supplies:			
1. Catheter			
2. Gloves			
3. Lubricant			
4. Cleansing supplies			
5. Container to collect urine			
D. Procedure:			
1. Washes hands			
2. Assembles equipment			
3. Assists student with clothing removal/adjustment and explains procedure			
4. Positions student properly			
5. Puts on gloves			
6. Lubricates catheter and places on clean surface			
7. Cleans			
a. Retracts foreskin (if uncircumcised)			
b. Holds penis at 45-90 degree angle from the abdomen			
c. Pulls penis straight			
d. Cleans meatus			
e. Using clean supplies each time, repeats cleaning procedure three times
