Student Patent Application

Form: P-7855.2

Inventor's Name:

Invention Title:

Type of Invention (check one):

	<p>Utility Patents: a process, compositions of matter, machines, and manufactures that are new and useful <i>Think of a totally new technology or product</i></p>
	<p>Design Patents: “surface ornamentation” of an object, which can include the shape or configuration of an object <i>Think the new Air Jordans or BMW 5 Series</i></p>
	<p>Plant/Animal Patents: can be obtained to protect engineered and distinctive species <i>Think Jurassic Park or genetically modified organisms (GMO)</i></p>

Invention Purpose/Use:

Other Uses or Applications For Invention:

Illustration of Invention:

Illustration should match the descriptions listed on Page 1. You may use the back pages of this form or other paper to complete this section

- Must include at least 3 different views (front, side, back):
- Must label at least 10 Features (see attachment A):

Invention Description:

- Must include all of the labeled features in the illustration and the feature's functions
