

# DESERT

---

## HABITAT

---

- ☀ **Very dry place with almost no water**
- ☀ **Less than 10 inches of rain a year**
- ☀ **Gets lots of sunlight and can get very hot in summer**
- ☀ **The soil is very sandy and rocky**

# GRASSLAND

---

## HABITAT

---

**Wide open valley or field where grass and flowers grow**

**This habitat gets around 24 inches of rain each year**

**Too wet to be a desert, too dry to be a forest, but just right for wild flowers to bloom**

# MOUNTAIN

---

## HABITAT

---

**This habitat rises high above its surroundings**

**Taller than a hill, mountains have a tall peak and steep sloping sides**

**It can get very cold in mountains and sometimes it will snow**

# OCEAN

---

## HABITAT

---

**Over half of Earth's surface is covered in salty ocean**

**Largest habitat on Earth**

**The coast of California has many rocky beaches and tidepools for animals to live and hide**
