

Science-at-Home Activities: Explore Outdoors

Reconnect with nature in your neighborhood or local park. Please follow guidelines and social distancing restrictions. Be safe and have fun!

	Monday	Tuesday	Wednesday	Thursday	Friday
Explore Outdoors	<p>Nature Scene Investigators (NSI)</p> <p>Explore your backyard or neighborhood with the help of our backyard missions. Select at least one of the mission.</p> <p>NSI Missions</p>	<p>Make a Nature Journal or Notebook</p> <p>Journals and books are a great place to record your observations. Here are two simple ideas for making a journal or notebook.</p> <p>Make a journal using cardboard, paper, rubber band and a stick/pencil.</p> <p>Directions for making a notebook using a piece of paper. For additional book options, visit bookmakingforkids.com.</p>	<p>Scavenger Hunt</p> <p>Using your senses (except for taste), head out on a scavenger hunt. Record your observations in a notebook, journal, or with a camera.</p> <p>Scavenger Hunt</p>	<p>OWL</p> <p>Observe: Sit somewhere outdoors and make observations. Record your what you see on the template or in your journal.</p> <p>Wonder: What do you wonder about nature?</p> <p>Learn: Now do some research to learn about your wonderings.</p> <p>OWL Template</p>	<p>Nature Art</p> <p>Using art supplies you have available at your house, draw or paint something you find outdoors. If available, you can also use dirt, rocks, sticks, or leaves from your yard for your project.</p> <p>Nature Art Ideas</p>
