

With the support of Ducommun Incorporated and the Los Angeles Chargers, we are challenging students to **design, build, and code** a rapid-fire mini football launcher to score maximum points at a specific target.

The actual competition will take place at Dignity Health Sports Park, home of the Chargers, on Sunday, **December 8, 2019**. The top two teams will then be invited to attend and recognized at the following Chargers home game on Sunday, December 15.

- HS Teams of 4-6 students with one teacher or school admin as the main contact. Schools may register up to 2 teams and each will receive their own tech sandbox.
- Registration is currently open until full.
- The materials will be mailed starting the week of September 16.
- Final Competition on **December 8** at Dignity Health Sports Park.
- Winning teams recognized on Sunday, December 15.
- Coding resources will be offered to all teams during the competition.
