Are there any unique student needs we should be aware of when presenting?

- Please schedule each class for their own time session (45-60 min). SDC students and partial classes (combo) can join in with another class as long as the total number of students per session does not exceed 40.
- If you have a hybrid or am/pm schedule, you will still schedule one time block for your class, and the students will log in from wherever they are (home or on campus).
- Include at least 10-15 minutes in between sessions, and a 30 minute lunch break if there are four (4) or more sessions.
- You must include your platform (Zoom, Teams, Meets, etc.) link, or meeting ID and password, for each class/session.

Please feel free to contact us if you need assistance with your schedule.

Classroom Set-up

Hybrid model with some students remote and some in the classroom.
