Education Code (E.C.) Section 60119 requires that the governing board of a school district hold an annual instructional materials public hearing to determine whether the district has sufficient standards-aligned textbooks and instructional materials. During this annual public hearing, a resolution regarding instructional materials sufficiency is made per E.C. 60119. A copy of a sample resolution and sample certification are enclosed to assist districts with compliance of the regulations.

The following is a summary of E.C. 60119 which includes the timeframe for the public hearing and resolution, along with other instructional materials requirements:

- A. The governing board shall hold a public hearing or hearings at which the governing board shall encourage participation by parents, teachers, members of the community interested in the affairs of the school district, and bargaining unit leaders, and shall make a determination, through a resolution, as to whether each pupil in each school in the district has sufficient textbooks or instructional materials, or both, that are aligned to the content standards adopted pursuant to Section 60605 or 60605.8 in each of the following subjects, as appropriate, that are consistent with the content and cycles of the curriculum framework adopted by the state board:
 - i. Mathematics.
 - ii. Science.
 - iii. History-social science.
 - iv. English/language arts, including the English language development component of an adopted program.

- B. The public hearing shall take place on or before the end of the eighth week from the first day pupils attend school for that year. A school district that operates schools on a multitrack, year-round calendar shall hold the hearing on or before the end of the eighth week from the first day pupils attend school for that year on any tracks that begin a school year in August or September.

- C. As part of the required hearing, the governing board of a school district shall also make a written determination as to whether each pupil enrolled in a foreign language or health course has sufficient textbooks or instructional materials that are consistent with the content and cycles of the curriculum frameworks adopted by the state board for those subjects. The governing board shall also determine the availability of laboratory science equipment as applicable to science laboratory courses offered in grades 9 to 12, inclusive.
- D. If the governing board determines that there are insufficient textbooks or instructional materials, or both, the governing board shall provide information to classroom teachers and to the public setting forth, in the resolution, for each school in which an insufficiency exists, the percentage of pupils who lack sufficient standards-aligned textbooks or instructional materials in each subject area and the reasons that each pupil does not have sufficient textbooks or instructional materials, or both, and take any action, except an action that would require reimbursement by the Commission on State Mandates, to ensure that each pupil has sufficient textbooks or instructional materials, or both, within two months of the beginning of the school year in which the determination is made.
- E. The governing board shall provide 10 days' notice of the public hearing or hearings. The notice shall contain the time, place, and purpose of the hearing and shall be posted in three public places in the school district. **The hearing shall be held at a time that will encourage the attendance of teachers and parents and guardians of pupils who attend the schools in the district and shall not take place during or immediately following school hours.**
- F. For the purposes of this Education Code Section, "Sufficient textbooks or instructional materials" means that each pupil, including English learners, has a standards-aligned textbook or instructional materials, or both, to use in class and to take home. This paragraph does not require two sets of textbooks or instructional materials for each pupil. **The materials may be in a digital format as long as each pupil, at a minimum, has and can access the same materials in the class and to take home, as all other pupils in the same class or course in the district and has the ability to use and access them at home.**
- G. Sufficient textbooks or instructional materials does not include photocopied sheets from only a portion of a textbook or instructional materials copied to address a shortage.

Please note it is also recommended that the resolution includes the sufficiency of visual and performing arts textbooks/instructional materials. Assembly Bill 1061, effective January 1, 2008 (see E.C. Section 33126), requires the governing board to make a finding regarding visual and performing arts textbooks/instructional materials sufficiency and include the results on the School Accountability Report Card (SARC).
