

Early Childhood Special Education Professional Development 2016-2017: A Focus on Early Literacy!

Mark your calendars to attend events that meet your needs:

Early Childhood Special Education Professional Development Events: Training, conferences, and Interagency Partnerships provide a wealth of learning options for early interventionists and preschool special educators.

PIES Infant/Toddler DHH Committee Meeting: Parent-Infant Education and Support Program (PIES) is a coordinated system of Early Start services for infants/toddlers with hearing impairments in Orange County. The PIES Committee, consisting of SELPA and other stakeholders, meets quarterly as an interagency committee and Professional Learning Community to enhance coordination, quality of services, address challenges, and share professional development.

California Early Start Services Support Network Videoconference: Meet Early Start teams from counties all over CA via videoconference to learn and share together. Our local group "links up" at OCDE to join this independent network of early interventionists dedicated to quality services. Topics are selected by the group and members are responsible to contribute to the quality of dialogue and learning.
