Campaign Data

Due December 6, 2023

Let's truly discover our impact. Please submit preliminary data by December 6, 2023. You will have a chance to finalize data in January but we like to get an idea of where we are after the November 30 deadline. Remember to count all applications that were submitted during campaign season, not only on the days of your events. This may mean having students complete the updated exit survey again.

You can find the [data forms](#) and information on our [FutureReady CA Resources website](#).

College Match Day for Juniors

The American College Application Campaign (ACAC) is embarking on a new event called College Match Day for Juniors This pilot will focus on students building their lists of postsecondary options that are a match and fit for their interests and learning goals to lead to greater application completion. As I learn more information, I will share it with you for those interested in learning more and looking for how to support juniors in the application process early.
