

# Regional Center of Orange County Services for Adults

The individuals we serve and their families often ask what services are available to them. We provide this list as an overview of some of the services and supports that are commonly recommended for adults. Please remember that services are determined on an individualized basis and no two individuals are the same. Services must be identified as needed on the Individual Program Plan (IPP) that is developed for each person served. There are also additional services provided through other sources that may need to be explored (such as insurance, Medi-Cal, and others) before Regional Center services are used.
